It is not possible to take only part of a subject, even when this one has two different ones. The student will have to take the whole of it.

- **Nursing students coming to these Centres:** Will start their practicum only if they have previously done the following, prior arrival at UEx:
Prove of updated vaccination/inmunization schedule.
This should be sent by email before coming here, as well as the learning agreement as requested above.
- Students coming to these Centros Universitarios will make sure they send –when requested- the **EHIC** (European Health Insurance Card) and bring it with them. Also, **private insurances** can be accepted.
- **No language certificate** will be required, but it is strongly **recommended** to have a **B1** Spanish level by the time the student arrives here.

-COVID-19. Practicum:

Due to the current situation, practicum will be offered according to the situation when the student arrives. Once the learning is sent before arrival, the student will be informed by the academic coordinator.
